What is this product?

Type

The UCITS-fund is an equity fund established in Finland. The depositary is SEB AB, Helsinki branch. The prospectus, annual and semi-annual reports, current unit prices and further information can be found free of charge from the Management Company, at www.fondita.com and from a local distributor.

Term

The investment horizon is long-term and should be at least 7 years.

Objectives

Fondita Healthcare is an actively managed, thematic global equity fund. The fund invests in listed healthcare companies that through their activities enhance health and well-being. The holdings of the fund are focused and consist of about 35 companies. The fund has a long investment horizon, given that the company's strategy and profitability progress as expected. In line with Fondita's investment philosophy, the fund invests in responsible, high quality growth companies, regardless of company size. The fund invests according to its theme in companies with a good market position within the healthcare subsectors with structural growth where prerequisites for continued profitable growth exist. Important quality indicators are the company's market position, return on investment, profitability, balance sheet quality, the responsibility of the company's own operations, the quality of its management and the consistency of the implementation of the business strategy. The fund seeks to generate over time a risk-adjusted return above the reference market through stock picking. Dividends will also be reinvested to allow compounded returns. Because of its return profile, equity investing always involves risks and changes in the value of a fund's investments can be significant. For this reason, the fund is recommended for investors with an investment horizon of at least 5 years. The fund's sustainability rating is Article 8 according to the EU SFDR Regulation and the investment objective is to promote environmental and social responsibility factors. In addition, the fund's target companies are required to comply with good governance practices. The fund complies with Fondita's principles and methods for Responsible Investing.

Intended retail investor

The investment fund is suitable for investors with a long investment horizon who wish to invest in a fund that invests in the shares of publicly traded companies that improve health and well-being through their activities. The client accepts the risks associated with equity investments.

What are the risks and what could I get in return?

Risk Indicator:

The risk indicator assumes you keep the product for at least 5 years

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because the product developer is unable to pay you.

We have classified this product as 4 out of 7, which is a medium.

This rates the potential losses from future performance at a medium level, and poor market conditions are very unlikely to impact our capacity to pay you.

Other risks: Currency risk, liquidity risk, operational risk and counterparty risk

This product does not include any protection from future market performance so you could lose some or all of your investment.

Key Information Document

Performance-Scenarios:

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

This type of unfavorable scenario occurred for an investment between 28.12.2021 - 28.12.2022 (If you exit after 1 year), 28.12.2021 - 29.12.2022 (If you exit after 5 years).

This type of moderate scenario occurred for an investment between 20.01.2020 - 20.01.2021 (If you exit after 1 year), 03.12.2013 - 03.12.2018 (If you exit after 5 years).

This type of favorable scenario occurred for an investment between 11.04.2014 - 13.04.2015 (If you exit after 1 year), 04.11.2016 - 04.11.2021 (If you exit after 5 years).

Recommended holding period: 5 years Example Investment: 10,000 EUR		If you exit after 1 year	If you exit after 5 years
Minimum	You could lose some or all of your investment.		
Stress scenario	What you might get back after costs	2,880.00 EUR	2,500.00 EUR
	Average return each year	-71.20 %	-24.21 %
Unfavourable scenario	What you might get back after costs	7,110.00 EUR	7,230.00 EUR
	Average return each year	-28.90 %	-6.28 %
Moderate scenario	What you might get back after costs	11,020.00 EUR	16,200.00 EUR
	Average return each year	10.20 %	10.13 %
Favourable scenario	What you might get back after costs	16,690.00 EUR	21,100.00 EUR
	Average return each year	66.90 %	16.11 %

What happens if Fondita Fund Management Company Ltd is unable to pay out?

The investments of the fund are held separately from the assets of the fund management company. As custodian of the assets of the fund acts Skandinaviska Enskilda Banken AB (publ), Helsinki branch. Thus, you will not lose your investment in the event of a possible insolvency of Fondita Fund Management Company Ltd. The investment is not part of any investor compensation or guarantee scheme.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment. If the fund is part of another product, for example a capital insurance, other costs may occur for that product.

Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- 10 000 EUR is invested.

	If you exit after 1 year	If you exit after 5 years
Total costs	317.37 EUR	1,744.12 EUR
Annual cost impact (*)	3.17%	2.29%

This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 12.71 % before costs and 10.13 % after costs.

Key Information Document

Composition of Costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	We do not charge any entry costs.	0.00 EUR

How long should I hold it and can I take money out early?

Recommended holding period: 5 years

This fund has no minimum holding period, but has been created for long term investment. You should therefore be prepared to remain invested for at least 5 years. However, you can exit your investment usually on every banking day in Finland. A list of days on which the trading of fund units is not possible is available from the Management Company and on the Management Company's website.

How can I complain?

If you wish to make a complaint about this product or the service provided, you can do so as follows:
