

Fondita Fund Management Company Ltd. Principle Adverse Impact Report 2024

This is the consolidated report for Fondita Fund Management Company Ltd. The fund considers principal adverse impacts of its investment decisions and sustainability factors. The present statement is the consolidated principal adverse sustainability impacts statement of Fondita Fund Management Company Ltd.

The principal adverse impacts statement covers the reference period from 1st of January to 31st of December 2024.

Principal adverse sustainability impact statement

Date: The information for the reference period of 2024 has been procured through MSCI ESG Research April 28 2025, which has been combined with manually sourced data for the reference period 2024 from the holdings not covered by third party databases May 15 2025.

Financial Market Participant: Fondita Fund Management Company Ltd.

Tiivistelmä

Fondita ottaa huomioon ja seuraa sijoituspäätöksensä pääasiallisia haittavaikutuksia kestävyystekijöihin. Tämä lausunto koskee viitejaksoa 1. tammikuuta 2024 - 31. joulukuuta 2024. Pääasiallisten haitallisten vaikutusten historiallinen kehitys on pysynyt samankaltaisena ensimmäisestä raportoidusta viitevuodesta (2022) lähtien. Hiilidioksidipäästöt ovat yhtiötasolla vähentyneet tasaisesti (tähän on osaltaan vaikuttanut AUM verrattuna vuoteen 2023) Ainoa poikkeama haittavaikutuksissa on niiden sijoituskohteena olevien yhtiöiden osuus, joilla on hiilidioksidipäästöjen vähentämistavoite, jolla pyritään vähentämään päästöjä Pariisin sopimuksen mukaisesti. Sijoituskohteina olevien yhtiöidemme asettamat hiilidioksidipäästöjen vähentämistavoitteet ovat yleisesti ottaen lisääntyneet, mutta Pariisin sopimuksen mukaiset tavoitteet ovat vähentyneet. Arvioimme tilannetta seuraavasti a) yhtiöt ovat asettaneet liian kunnianhimoisia tavoitteita ja luopuneet viime vuoden aikana Pariisin sopimuksen noudattamisesta b) yhtiöt ovat reagoineet meneillään olevaan ESG-vastaisuuteen mm. USAssa. Lisäksi useissa raporteissa todetaan, että Pariisin ilmastopöimuksen mukainen 1,5 asteen tavoite ei ole mahdollinen enään, mikä saattaa osaltaan vaikuttaa ja realistinen lähestymistapa voisi olla 2 asteen tavoite. Jatkamme seurantaa ja yhteistyötä yhtiöiden kanssa (vaikuttamisohjeistuksemme mukaisesti), koska pidämme päästöjen vähentämistä tärkeänä. Muutoin raportoiduissa pääasiallisissa haitallisissa kestävyysvaikutuksissa ei ole havaittu suurempia poikkeamia. Koska yritysten toimittamien, pääasiallisia haitallisia kestävyysvaikutuksia koskevien tietojen saatavuus on vuosien mittaan jatkuvasti parantunut, Fondita on pystynyt toteuttamaan konkreettisia toimia ja asettamaan tavoitteita useimmille haitallisen kestävyysindikaattorille, vaikka joidenkin osalta tavoitteiden asettaminen on vielä haastavaa puuttellisen tiedon takia. Viitejakson aikana ei ole ollut kansainvälisiä normirikkomuksia. Tässä raportissa tarkastellaan kaikkia kahdeksaa rahastoa.

Descriptions of the principal adverse impacts on sustainability factors

The mandatory indicators defined by the SFDR are set out in the Table below. Additionally to the mandatory indicators, two voluntary have been chosen a) one climate indicator " Investments in companies without carbon emission reduction initiatives" b) one social indicator " Number of identified cases of severe human rights issues and incidents in the Table below. For each indicator relevant, we have included descriptions on actions that we have taken and actions we plan to take on the relevant principle adverse impact. We have reported for the reference period from 1st of January 2024 to 31st of December 2024.

The report has been published 16.06.2025.

Principal adverse sustainability impact statement

Mandatory indicators applicable to investments in investee companies

Climate and other environment-related indicators

	Adverse Sustainability Indicator	Metric	Impact 2024 [year n]	Impact 2023 [year n-1]	Explanation	Actions taken, and actions planned and targets set for the next reference period
Greenhouse gas emissions	1. GHG emissions	Scope 1 GHG emissions	6809,01	8091,41	Sum of portfolio companies' Carbon Emissions - Scope 1 (metric tons) weighted by the portfolio's value of investment in a company and by the company's most recently available enterprise value including cash.	<p>Fondita excludes (revenues over 5%) fossil fuel-based industries in the investment processes in accordance with Fondita's Responsible Investment Policy and Fondita's Exclusion list. Fondita signed the Net Zero Asset Managers initiative in 2022 and set targets in February 2023. Fondita commits to reduce 70% of portfolio emissions by 2030. The target currently includes Scope 1 and Scope 2 emissions.</p> <p>Fondita is well on track to reach the goals which can be reviewed in our TCFD aligned Climate Report published in H2/2024.</p> <p>The initiative, Net Zero Asset Manager has on its own accord been deactivated and the initiative has informed it's under review of how to continue since the start of 2025. The goals of all signatories have been removed from the homepage. However, Fondita is dedicated to continue to work towards our targets and we will follow the development on the initiative, before we make a decision on how to continue depending on Net Zero Asset Manager initiatives decision.</p>
		Scope 2 GHG emissions	4890,28	5758,03	Sum of portfolio companies' Carbon Emissions - Scope 2 (metric tons) weighted by the portfolio's value of investment in a company and by the company's most recently available enterprise value including cash.	
		Scope 3 GHG emissions	131252,86	164119,39	Sum of portfolio companies' Total Emissions Estimated - Scope 3 (metric tons) weighted by the portfolio's value of investment in a company and by the company's most recently available enterprise value including cash.	
		Total GHG emissions	140672,86	177969,38	The total annual Scope 1, Scope 2 and estimated Scope 3 GHG emissions associated with the market value of the portfolio. Companies' carbon emissions are apportioned across all outstanding shares and bonds (based on the most recently available enterprise value including cash).	

	Adverse Sustainability Indicator	Metric	Impact 2024 [year m]	Impact 2023 [year n-1]	Explanation	Actions taken, and actions planned and targets set for the next reference period
Greenhouse gas emissions	2. Carbon footprint	Carbon footprint	2107,08	2442,03	The total annual Scope 1, Scope 2, and estimated Scope 3 GHG emissions associated with 1 million EUR invested in the portfolio. Companies' carbon emissions are apportioned across all outstanding shares and bonds (based on the most recently available enterprise value including cash).	Additionally, Fondita screens and monitors all holdings if they have a carbon reduction initiative implemented. The progress is reported in the Annual Review of Responsible Investments and in our quarterly ESG fund reports.
	3. GHG intensity of investee companies	GHG intensity of investee companies	4699,86	4280,16	The portfolio's weighted average of its holding issuers' GHG Intensity (Scope 1, Scope 2 and estimated Scope 3 GHG emissions/EUR million revenue).	Fondita screens all holdings for equality and diversity policies implemented by the company. Fondita reaches out to companies which do not have one as part of our Engagement Policy.
	4. Exposure to companies active in the fossil fuel sector	Share of investments in companies active in the fossil fuel sector	0,53%	1,88%	The percentage of the portfolio's market value exposed to issuers with fossil fuels related activities, including extraction, processing, storage and transportation of petroleum products, natural gas, and thermal and metallurgical coal.	Overall, emissions for the company has had a decreasing trend, partly due to the small decrease in AUM compared to 2023.
	5. Share of non-renewable energy consumption and production	Share of non-renewable energy consumption and non-renewable energy production of investee companies from non-renewable energy sources compared to renewable energy sources, expressed as a percentage of total energy sources	62,98%	66,52%	The portfolio's weighted average of issuers' energy consumption and/or production from nonrenewable sources as a percentage of total energy used and/or generated.	
	6. Energy consumption intensity per high impact climate sector	Energy consumption in GWh per million EUR of revenue of investee companies, per high impact climate sector NACE Code A (Agriculture, Forestry and Fishing)	N/A	N/A	The portfolio's weighted average of Energy Consumption Intensity (GWh/million EUR revenue) for issuers classified within relevant NACE Code.	The datapoints for PAI (6) is still difficult to retrieve from companies and third party providers, which makes it not possible to set specific targets for the next reference period.

	Adverse Sustainability Indicator	Metric	Impact 2024 [year m]	Impact 2023 [year n-1]	Explanation	Actions taken, and actions planned and targets set for the next reference period
Greenhouse gas emissions		NACE Code B (Mining and Quarrying)	N/A	N/A		
		NACE Code C (Manufacturing)	3,57	3,32		
		NACE Code D (Electricity, Gas, Steam and Air Conditioning Supply)	1,63	1,71		
		NACE Code E (Water Supply; Sewerage, Waste Management and Remediation Activities)	2,1	1,85		
		NACE Code F (Construction)	0,5	0,15		
		NACE Code G (Wholesale and Retail Trade; Repair of Motor Vehicles and Motorcycles)	0,32	0,23		
		NACE Code H (Transportation and Storage)	N/A	N/A		
		NACE Code L (Real Estate Activities)	3,68	3,47		

	Adverse Sustainability Indicator	Metric	Impact 2024 [year n]	Impact 2023 [year n-1]	Explanation	Actions taken, and actions planned and targets set for the next reference period
Biodiversity	7. Activities negatively affecting biodiversity-sensitive areas	Share of investments in investee companies with sites/operations located in or near to biodiversity-sensitive areas where activities of those investee companies negatively affect those areas	4,33%	3,00%	The percentage of the portfolio's market value exposed to issuers' that reported having operations in or near biodiversity sensitive areas and have been implicated in controversies with severe or very severe impacts on the environment.	Fondita has registered an increase in our investments which have exposure towards biodiversity-sensitive areas. The goal for the next reference period is to maintain this level (less than 5%) and make additional efforts in the assessments of biodiversity to lower this over the incoming two reference periods.
Water	8. Emissions to water	Tonnes of emissions to water generated by investee companies per million EUR invested, expressed as a weighted average	0,02	0,01	The total annual wastewater discharged (metric tons reported) into surface waters as a result of industrial or manufacturing activities associated with 1 million EUR invested in the portfolio. Companies' water emissions are apportioned across all outstanding shares and bonds (based on the most recently available enterprise value including cash).	Limited data availability on PAI (8) from companies and third party databases provides a difficult environment to set concrete targets for the next period. We expect data availability will improve over the next reference period and hope to set targets in next years PAI report.
Waste	9. Hazardous waste and radioactive waste ratio	Tonnes of hazardous waste and radioactive waste generated by investee companies per million EUR invested, expressed as a weighted average	10,61	12,14	The total annual hazardous waste (metric tons reported) associated with 1 million EUR invested in the portfolio. Companies' hazardous waste is apportioned across all outstanding shares and bonds (based on the most recently available enterprise value including cash).	The levels of hazardous waste and radioactive waste remain on a acceptable level and the target for the incoming reference year is to maintain the same levels.

INDICATORS FOR SOCIAL AND EMPLOYEE, RESPECT FOR HUMAN RIGHTS, ANTI-CORRUPTION AND ANTI-BRIBERY MATTERS

	Adverse Sustainability Indicator	Metric	Impact [year m]	Impact [year n-1]	Explanation	Actions taken, and actions planned and targets set for the next reference period
Social and employee matters	10. Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises	Share of investments in investee companies that have been involved in violations of the UNGC principles or OECD Guidelines for Multinational Enterprises	0%	0%	The percentage of the portfolio's market value exposed to issuers with very severe controversies related to the company's operations and/or products.	Fondita does not invest in companies which have violations of the UN Global Compact principles and OECD guidelines for multinational enterprises.
	11. Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises	Share of investments in investee companies without policies to monitor compliance with the UNGC principles or OECD Guidelines for Multinational Enterprises or grievance/ complaints handling mechanisms to address violations of the UNGC principles or OECD Guidelines for Multinational Enterprises	1,99%	3,95%	The percentage of the portfolio's market value exposed to issuers that are not signatories in the UN Global Compact.	Fondita completes monthly screenings of all holdings for violations of UN Global Compact and OECD guidelines for multinational enterprises.
	12. Unadjusted gender pay gap	Average unadjusted gender pay gap of investee companies	11,21%	11,55%	The portfolio holdings' weighted average of the difference between the average gross hourly earnings of male and female employees, as a percentage of male gross earnings.	Fondita screens all holdings for equality and diversity policies implemented by the company. Fondita reaches out to companies which do not have one as part of our Engagement Policy.
	13. Board gender diversity	Average ratio of female to male board members in investee companies, expressed as a percentage of all board members	37,39%	37,38%	The portfolio holdings' weighted average of the ratio of female to male board members.	Fondita screens all holdings for equality and diversity policies implemented by the company. Fondita reaches out to companies which do not have one as part of our Engagement Policy.
	14. Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)	Share of investments in investee companies involved in the manufacture or selling of controversial weapons	0%	0%	The percentage of the portfolio's market value exposed to issuers with an industry tie to landmines, cluster munitions, chemical weapons, or biological weapons. Note: Industry ties includes ownership, manufacturing, and investments. Ties to landmines do not include related safety products.	Fondita excludes all controversial weapons (any tie) according to our exclusion list.

Other voluntary indicators for principal adverse impacts on sustainability factors

Emmissions and human rights

Adverse Sustainability Indicator	Metric	Impact 2024 [year n]	Impact 2023 [year n-1]	Explanation	Actions taken, and actions planned and targets set for the next reference period
15. Investments in companies without carbon emission reduction initiatives	Share of investments in investee companies without carbon emission reduction initiatives aimed at aligning with the Paris Agreement	30,89%	19,39%	The percentage of the portfolio's market value exposed to issuers without a carbon emissions reduction target aligned with the Paris Agreement.	The share of Fondita's investments with an carbon reduction target has actually increased since the last reference period, however the share which have aimed at aligning with the Paris Agreement has decreased. We suspect the decrease is due to the climate and sustainability backlash which as been ongoing especially in the US. Fondita will continue to advocate for climate reduction targets through our engagement policy .
16. Number of identified cases of severe human rights issues and incidents	Number of cases of severe human rights issues and incidents connected to investee companies on a weighted average basis	0%	0%	The total number of severe and very severe human rights concerns controversies associated with EUR 1 million invested in the portfolio. It is calculated as the weighted average of Number of Severe and Very Severe Human Rights Concerns Controversies per company divided by the company's most recently available enterprise value including cash (EVIC).	The target for next year is to remain on the same level with no exposure to severe human rights concerns.

Description of policies to identify and prioritise principal adverse impacts on sustainability factors

Fondita monitors principle adverse impacts for anomalies and to safeguard our investments meet a certain minimum ESG standard. Our minimum ESG standard includes positive and negative screening, in the form of exclusion (negative) and best performance (positive) screens. By applying certain screens to the investments before our investment decision, we limit our exposure to negative impacts on our principle adverse impacts on sustainability factors. Furthermore, we monitor the principle adverse impact, and when we identify anomalies further analysis is applied to investigate potential high negative impacts on environmental and social factors. Depending on the results, this can lead to engagement and ultimately divestment.

The margin of error with our methodologies is always dependant on data availability from our third party ESG data providers as well as the information we can retrieve manually. Our margin of error is fairly low, as we report information which we receive directly from the holdings or information which third party data providers have gathered and verified. Currently we have around 75-80% coverage on our datapoints and the largest datagap is for our Micro cap funds, which have smaller companies with limited publicly disclosed or available on request ESG information. This is because the regulation of company level reporting is still lagging behind the regulation which applies to the financial markets, and there is a situation of asymmetrical information where asset managers have to report on data which smaller companies do not have to report on. We do our best to continue to improve our data coverage, however this gap in data available is noted in our methodologies as potential causes to error, which we have taken into account in our mitigating actions. More information about our data quality, data coverage and processes in our sustainability related disclosures.

Data sources used for the procurement of the principle adverse impact data is mainly MSCI ESG research, combined with manually procured information of principle adverse impact data (with the same metrics) from companies. Additional information on the data sources and methodologies used is available on request, such as the specific screening criteria.

You can find more information about our responsible investment practices and reports to identify and prioritise principle adverse impacts in our reporting section on the homepage. The following documents are relevant, our [Responsible Investment Policy](#) (latest version update March 2025), [Fondita Prospectus](#) (latest version update May 2025) and [Annual Review of Responsible Investments](#) (latest version update April 2025) The latest versions have been approved by senior management of Fondita Fund Management Company and implemented by the Head of ESG. The policies and related documents are updated at least annually.

Engagement policies

Fondita engages accordingly to our [Engagement Policy](#). The engagement policy considers active ownership, voting, collaborative engagement and commitment to advance two topics as part of our engagement strategy, carbon reduction targets and equality & diversity policies implemented which also has a positive effect to reduce the principle adverse impacts. The Table above mentions the PAI which are relevant for the Engagement Policy.

References to international standards

Fondita invests in companies which adhere to international standards and norms. Fondita screens companies before we invest in them as well as perform a monthly screening during the holding time to ensure compliance with the international standards and norms. The following international standards are included:

- UN Global Compact, relevant for PAI 10 and PAI 11
- OECD Guidelines for Multinational Enterprises, relevant to PAI 10 and PAI 11
- ILO conventions on labour standards, relevant to PAI 10
- UN Guiding Principles on Business and Human Rights, relevant to PAI 10 and 11

We have used the [Net Zero Investment Framework \(NZIF\)](#) which is a [Paris aligned](#) (1.5 degree) methodology to set up our Net Zero Asset Manager initiative targets. Our [Climate Report](#) (published H2/2024) is available on our homepage for more information about our progress towards the targets, our forward looking climate scenario analysis and much more. These international standards are relevant for PAI 1-6 (Greenhouse gas emissions).

Historical comparison

A historical comparison of the period reported on with the previous period reported on is included in the above table.

Notice & Disclaimer

The Information may not be modified, reverse-engineered, reproduced or disseminated in whole or in part without prior written permission from MSCI. All rights in the Information are reserved by MSCI and/or its Information Providers.

The Information may not be used to create derivative works or to verify or correct other data or information. For example (but without limitation), the Information may not be used to create indexes, databases, risk models, analytics, software, or in connection with the issuing, offering, sponsoring, managing or marketing of any securities, portfolios, financial products or other investment vehicles utilizing or based on, linked to, tracking or otherwise derived from the Information or any other MSCI data, information, products or services.

The user of the Information assumes the entire risk of any use it may make or permit to be made of the Information. NONE OF THE INFORMATION PROVIDERS MAKES ANY EXPRESS OR IMPLIED WARRANTIES OR REPRESENTATIONS WITH RESPECT TO THE INFORMATION (OR THE RESULTS TO BE OBTAINED BY THE USE THEREOF), AND TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, EACH INFORMATION PROVIDER EXPRESSLY DISCLAIMS ALL IMPLIED WARRANTIES (INCLUDING, WITHOUT LIMITATION, ANY IMPLIED WARRANTIES OF ORIGINALITY, ACCURACY, TIMELINESS, NON-INFRINGEMENT, COMPLETENESS, MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE) WITH RESPECT TO ANY OF THE INFORMATION.

Without limiting any of the foregoing and to the maximum extent permitted by applicable law, in no event shall any Information Provider have any liability regarding any of the Information for any direct, indirect, special, punitive, consequential (including lost profits) or any other damages even if notified of the possibility of such damages. The foregoing shall not exclude or limit any liability that may not by applicable law be excluded or limited, including without limitation (as applicable), any liability for death or personal injury to the extent that such injury results from the negligence or willful default of itself, its servants, agents or sub-contractors.

Information containing any historical information, data or analysis should not be taken as an indication or guarantee of any future performance, analysis, forecast or prediction. Past performance does not guarantee future results.

The Information should not be relied on and is not a substitute for the skill, judgment and experience of the user, its management, employees, advisors and/or clients when making investment and other business decisions. All Information is impersonal and not tailored to the needs of any person, entity or group of persons.

None of the Information constitutes an offer to sell (or a solicitation of an offer to buy), any security, financial product or other investment vehicle or any trading strategy. It is not possible to invest directly in an index. Exposure to an asset class or trading strategy or other category represented by an index is only available through third party investable instruments (if any) based on that index. MSCI does not issue, sponsor, endorse, market, offer, review or otherwise express any opinion regarding any fund, ETF, derivative or other security, investment, financial product or trading strategy that is based on, linked to or seeks to provide an investment return related to the performance of any MSCI index (collectively, "Index Linked Investments"). MSCI makes no assurance that any Index Linked Investments will accurately track index performance or provide positive investment returns. MSCI Inc. is not an investment adviser or fiduciary and MSCI makes no representation regarding the advisability of investing in any Index Linked Investments.

Index returns do not represent the results of actual trading of investible assets/securities. MSCI maintains and calculates indexes, but does not manage actual assets. Index returns do not reflect payment of any sales charges or fees an investor may pay to purchase the securities underlying the index or Index Linked Investments. The imposition of these fees and charges would cause the performance of an Index Linked Investment to be different than the MSCI index performance.

The Information may contain back tested data. Back-tested performance is not actual performance, but is hypothetical. There are frequently material differences between back tested performance results and actual results subsequently achieved by any investment strategy.

Constituents of MSCI equity indexes are listed companies, which are included in or excluded from the indexes according to the application of the relevant index methodologies. Accordingly, constituents in MSCI equity indexes may include MSCI Inc., clients of MSCI or suppliers to MSCI. Inclusion of a security within an MSCI index is not a recommendation by MSCI to buy, sell, or hold such security, nor is it considered to be investment advice.

Data and information produced by various affiliates of MSCI Inc., including MSCI ESG Research LLC and Barra LLC, may be used in calculating certain MSCI indexes. More information can be found in the relevant index methodologies on www.msci.com.

MSCI receives compensation in connection with licensing its indexes to third parties. MSCI Inc.'s revenue includes fees based on assets in Index Linked Investments. Information can be found in MSCI Inc.'s company filings on the Investor Relations section of www.msci.com.

MSCI ESG Research LLC is a Registered Investment Adviser under the Investment Advisers Act of 1940 and a subsidiary of MSCI Inc. Except with respect to any applicable products or services from MSCI ESG Research, neither MSCI nor any of its products or services recommends, endorses, approves or otherwise expresses any opinion regarding any issuer, securities, financial products or instruments or trading strategies and MSCI's products or services are not intended to constitute investment advice or a recommendation to make (or refrain from making) any kind of investment decision and may not be relied on as such. Issuers mentioned or included in any MSCI ESG Research materials may include MSCI Inc., clients of MSCI or suppliers to MSCI, and may also purchase research or other products or services from MSCI ESG Research. MSCI ESG Research materials, including materials utilized in any MSCI ESG Indexes or other products, have not been submitted to, nor received approval from, the United States Securities and Exchange Commission or any other regulatory body.

Any use of or access to products, services or information of MSCI requires a license from MSCI. MSCI, Barra, RiskMetrics, IPD and other MSCI brands and product names are the trademarks, service marks, or registered trademarks of MSCI or its subsidiaries in the United States and other jurisdictions. The Global Industry Classification Standard (GICS)™ is a service mark of MSCI and Standard & Poor's. "Global Industry Classification Standard (GICS)" is a service mark of MSCI and Standard & Poor's.

MIFID2/MIFIR notice: MSCI ESG Research LLC does not distribute or act as an intermediary for financial instruments or structured deposits, nor does it deal on its own account, provide execution services for others or manage client accounts. No MSCI ESG Research product or service supports, promotes or is intended to support or promote any such activity. MSCI ESG Research is an independent provider of ESG data, reports and ratings based on published methodologies and available to clients on a subscription basis. We do not provide custom or one-off ratings or recommendations of securities or other financial instruments upon request.
